

## *Invacare*® | **Non-Powered Surfaces**

*Invacare* has a long standing reputation for providing patient centric products that have been designed in conjunction with Clinicians and provide maximum clinical efficacy. Tailored to suit patients level of care, weight limit and durability, the **Softform** range of Surfaces offers a complete solution to effective pressure redistribution. Essential nursing care is pivotal in pressure ulcer prevention. *Invacare* **Therapeutic Support Surfaces** will positively contribute to the outcome of a pressure ulcer prevention care plan.

## Cost Effective Solution to Pressure Management

The *Invacare Softform Excel* provides a high level of comfort and is constructed from high specification foam which provides even weight distribution for greater comfort and pressure redistribution. With a robust foam base, it prevents the mattress from bottoming out and is suitable for those considered 'At Risk' of developing pressure injuries.

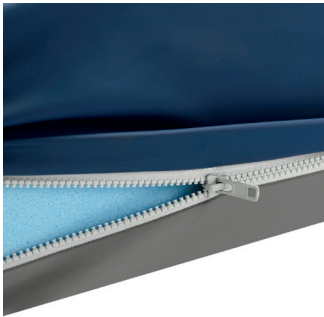

## Versatile

The core of the *Invacare® Softform Excel™* is constructed from a series of 'keyhole cut' cells, which move independently to evenly distribute weight, promoting greater comfort and facilitating pressure redistribution. The robust base features a firm layer of high density foam to provide substantial support.

## Safety First

The cover fabric provides excellent recovery and durability, and helps to reduce shear and friction forces. The base of the mattress is a tough coated polyurethane (PU) which protects the mattress when used with electric profiling bed frames.

## Features and Options

### Zip Around Three Sides

Allows easy inspection of the foam core.

### Rotate-Only Mattress

Rotate-only turning cycle will increase longevity. Non turn reduces the amount of manual handling required.

### Strong and Durable Construction

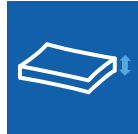

The *Invacare Softform Excel* is an established choice of healthcare professionals.

### Raised Side-Rail (RSR) Covers Sold Separately

Patients requiring additional side support, Widths up to 48".

## Technical Data

Width	Length	Height	Total Product Weight	Max. User Weight	Max. Cleaning Temperature
					
36"	76", 80", 84"	6"	22 lbs	450 lbs	80°

## Clinically Proven 21st Century Design

The *Invacare **Softform Premier*** is a high specification mattress designed to meet the demands of the Community and assisted living environment. Practical and durable, this mattress delivers exceptional levels of comfort and pressure redistribution while maintaining great value. The ***Softform Premier*** is suitable for those considered at 'High/Very High Risk' of developing pressure injuries.

## Effective Pressure Ulcer Prevention

The *Invacare® Softform Premier™* features a castellated insert, constructed from geometric cut surface cells, which move independently to provide excellent patient comfort, reduce shear and friction and optimise pressure reduction. The design of each cell allows essential air circulation, minimising the build up of heat and moisture.

## Cover is Resistant to Fluid Ingress

The outer cover is a multi-stretch, waterproof, polyurethane fabric with high frequency welded seams and a full length flap concealing the zip. These features combine to effectively reduce the potential of fluid entering into the mattress. The base of the mattress features a toughened PU coating to prolong the longevity of the mattress.

## Features and Options

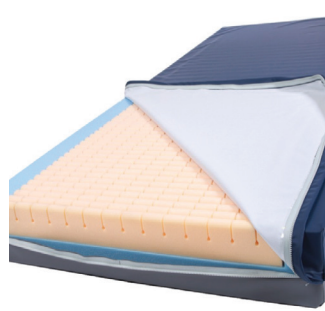

### Does not Require Turning or Rotating

This mattress does not require turning, significantly minimising manual handling issues.

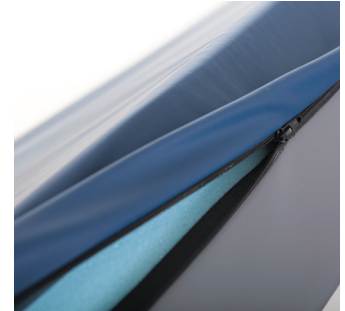

### Raised Side-Rails (RSR) Covers Sold Separately

Patients requiring additional side support, Widths up to 48".

### Single Piece Foam "U" Core

The *Invacare Softform Premier* ensures extra support for patient transfers.

### Welded Zipper Cover

Protects from fluid entering the surface & makes cover easy to remove for laundering.

## Technical Data

## Smooth Sliding Surface, Top Surface Remains With Patient, While Bottom Surface Profiles With Bed Frame

The **Glissando Gliding Mattress** features a deep-contoured insert pad constructed from 'keyhole' cut castellated foam cells, which move independently to maximise the body contact area, minimizing pressure regions.

## Features and Options

The *Invacare® Glissando® Gliding Mattress* high specification foam mattress offers a new and innovative glide mechanism that significantly reduces shear and friction forces when used with power profiling beds. The patented design of the mattress allows the top surface to provide excellent pressure redistributing properties along with a high level of comfort and support. The base of the mattress uniquely separates to conform to the bedframe. The *Glissando Gliding Mattress* is suitable for use with those who are considered to be at 'Very High Risk'\* of developing pressure injuries.

### Multi Stretch Cover

The mattress cover is multi-stretch and conforms to the deep contoured castellation's on the upper surface of the mattress, minimising creasing and further reducing the potential for tissue damage.

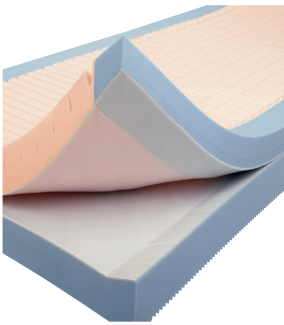

### Reduces the Need for Manual Handling

The profiling mattress maximises the benefits of an electric profiling bed, delivering improved positioning whilst reducing the requirement for repositioning of the client.

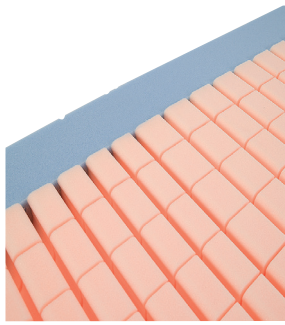

### Integrated Raised Side-Rails (RSR) Option

Built-in Bolstered Edged for patients requiring additional side support, Widths up to 42"

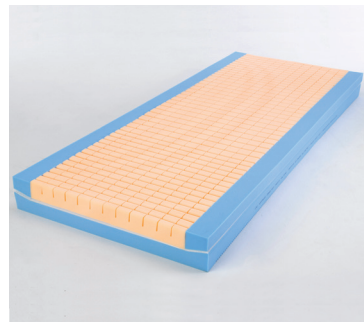

### Patented Design

The "Glide" mattress system is only available from Invacare and approved distributors.

### Modular Construction

Enables easy replacement of all parts, increasing product longevity.

### Pressure Ulcer Prevention

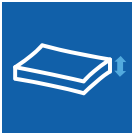

The mattress provides an excellent pressure reducing surface, designed to maximise the body contact area to prevent pressure injuries.

### Resistant to Fluid Ingress

Features four-way stretch, vapour-permeable and waterproof polyurethane cover with high frequency welded seams and a full length flap concealing the zip.
