

Prime Care Bed Model P902

LOW BED

76", 80", 84"

OPTIONAL

FLOOR LOCK

WALL BUMPER &

- Quiet, smooth operation/Easy-to-use Hand Pendant electrically controls Head/Foot/Contour positioning and overall height of the bed frame for maximum comfort and versatility for the patient and caregiver
- Clip-on pendant mounts on bed rail, within easy reach to operate all adjustments
- Variable Comfort Chair and Cardiac Chair (with Trendelenburg/Reverse Trendelenburg option) adjustability helps provide added comfort and relaxation positioning for the resident and facilitates caregiver accessibility
- Cardiac Chair positioning is beneficial for residents with heart and respiratory problems that find the semi-upright position brings comfort and relief by elevating the torso from the waist up, which provides relief to the lungs, increases circulation
- Edema foot ratchet elevates the foot end of the bed
- Trendelenburg/Reverse Trendelenburg capable positioning with Staff Control Option is ideal for rehab and sub-acute care, provides therapeutic benefits that can aid in circulation and ease discomfort
- Roll at any height convenience, plus steer control provides easy maneuverability
- Intuitive Bar-Pedal Floor Lock system at the foot end is centrally located and easily accessible Press Bar down to engage floor locks to secure bed from rolling and disengage using release pedals on either side of the caster housing
- Adjustable wall saver minimizes distance between wall to bed frame to prevent damage with/without optional Trapeze
- Adjustable mattress retainer securely supports mattress position for 76", 80", 84" length
- All Steel frame and no sag slat deck construction provides superior strength, durability, mattress support and is easy-to-clean
- Choice of 3 Bed End Styles (option) and 5 attractive wood grain laminate colors will compliment most any décor
- Optional Assist Bars/Rails help with resident entry and exit from bed
- Optional Embedded Staff Control at the foot end of the bed with lock out feature provides easy access for position adjustments
- Optional Battery Backup for emergency use when loss of power occurs
- 76", 80" and 84" sleep surface
- 35" width w/optional expansion to 42"
- 7" super low height; 30 1/2" high working height
- 500 lbs weight capacity*
- Intertek ETL Classified
- Certified to CAN/CSA Std C22 2 No 60601-1 & 60601-2-52
- Conforms to ANSI/AAMI Std E60601-1, IEC Std 60601-1, IEC STD 60601-2-52
- International Protection (IP) 54
