# Xclusive

## straight stairlift

We are delighted to offer you our Xclusive solution to overcome the challenges caused by domestic staircases.

Handicare is one of the world's largest manufacturers of stairlifts. With a history of more than 125 years we have lots of satisfied and happy users worldwide. We know that staying in their home means the world to many people and we are proud to have helped so many customers regain their independence.

The Xclusive stairlift has been designed with the user in mind and offers options to suit different users' needs. We have drawn on feedback from users, healthcare professionals

and our substantial experience to develop a valuable asset for your convenience. Choosing Handicare means choosing a comfortable, quiet stairlift that is not only convenient, but also beautiful and fits any house and interior.

The Xclusive offers you the opportunity to own a stylish stairlift that delivers a safe and reliable solution.

### Safety as standard

The Xclusive has undergone rigorous testing to ensure that you will receive a stairlift you can trust.

### Customize to meet your needs

The retractable seat belt has been designed to be easy to operate regardless of which side of the seat it is located so you can choose the side that is best for you.

The Xclusive also comes with two remote controls which can be used to call the stairlift between floors. This is particularly useful in multi user situations. These battery operated controls can be located in wall brackets so they are on hand when required.

### Easy to operate

Designed to be easy to identify, the operating toggle has been developed from a tried and tested design that was made in collaboration with occupational therapists.

To operate the stairlift simply hold the toggle in the desired direction of travel. Its robust yet ergonomic design means that it can be operated by users with limited dexterity.

Left or right handed? Your operating toggle can be put on whichever side of your Xclusive Stairlift is most suited to your needs.

### Effortless style

Installing a stairlift in your home shouldn't mean making big changes; a staircase survey will highlight any adjustments required so they can be made prior to installation.

Fixed to either side of your stairs, not the wall, you do not need to worry about disturbing your décor and the Xclusive can be fixed to carpeted, bare wood or marble which makes it suitable for a wide range of straight staircases.

The Xclusive has been styled to blend with or compliment many color schemes.

Handicare is a leading supplier of assistive equipment that helps to make everyday life easier

### **Slimline design**

This compact and unobtrusive stairlift is designed to maximize the clear space on the stairs when folded making it easier for other users of the stairs to pass the stairlift.

### **Option to upgrade**

You can specify your Xclusive to meet your needs now and also in the longer term by adding powered features to give you a little extra assistance. When you reach the top of the stairs you turn your seat to face the landing by pushing the swivel lever; there is one located on both sides of the seat. Once you have turned your seat you can step from the seat directly onto the landing.

If you choose to upgrade to a powered swivel option you simply swivel your seat with the toggle control by continuing to hold it towards the direction of travel when you reach the top of the stairs.

The footplate can be folded up to reduce the amount of space the Xclusive requires when not in use. You may also opt for the powered footplate option. This will remove the need for you to bend down to fold the footplate up or down.

# The benefits of a Handicare stairlift

## Experience

Convenience serves people... and Handicare has been doing just that for more than 125 years.

With technical perfection, intelligent solutions and safe applications, Handicare's innovations have provided not only greater comfort, but also more attractive stairlifts... in your style, your taste.

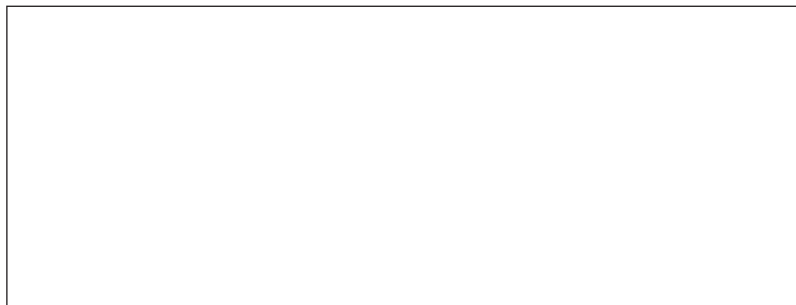

Top quality in all respects make the Handicare stairlift a valuable asset for independence around the home. Many satisfied users experience that every day.

## Quality and safety

All our new products are delivered with a 2 year limited warranty.

A Handicare stairlift stands for high quality: quality in terms of safety, innovation, comfort and design. Furthermore, all our products are tested and approved by worldwide independent inspection services. This gives you the assurance that all our products meet the highest standards in terms of quality and safety.
